

The latest entry to the Foxgear lineup is the Rainbow. The Rainbow Reverb is the ultimate digital reverb effect. The Rainbow is based on the well known and reliable DSP FV-1 used in most of the boutique pedals in the market, and offers 5 reverb presets that include 2 mind-blowing shimmering algorithms in addition to the other 2 classic reverb effects and an innovative and inspiring "RotaryVerb" (imagine putting an old rotary speaker right in the middle of the Pantheon temple in Rome...) These features are all at a fraction of what other boutique pedals cost.

The Foxgear Rainbow, like all other Foxgear pedals, keeps the signal path 100% analog, with audio capacitors (no SMD) in the signal path and true bypass relay, which avoids any undesired effect to your tone while running in front of your amp or in the FX loop. At the core of the Rainbow is the upper central selector that works in synergy with the "Multi" control. This control has specific yet differing roles depending on the algorithm selected, and Tone and Deep controls work to help you to reach unexpected nuances in any algorithm. Easy to use and designed for superlative sound, the Foxgear Rainbow is a great addition to any rig, novice to pro. The FoxGear Rainbow Reverb's immense tonal capabilities, along with its small size and affordability make it the smart choice for reverb.

Algorithms:

Shimmer: The Shimmer effect is a well-known kind of reverb tail that mimics the sound of strings or organ that rise up behind your notes and follows the harmony of the chords you are playing for an outstanding result.

Celestial: more shimmer! High pitched and different frequency harmonics mimic a more effective organ/string carpet, organic, dynamic and touch responsive, so creative! (Deep Control changes the frequency used for the shimmer effect)

Rotary Verb: imagine placing an old rotary speaker in the middle of the empty Pantheon in Rome. With the Multi control you can change the IFO rate to increase or decrease the modulation.

Church: one of the coolest reverb effects, uses the Deep control to move from your local church to a larger Gothic Chathedral.

Spring: emulate an analog spring reverb allowing you chose the length with Deep control, and Lo-cut filtering with the Multi control.

CONTROLS:

Power In	9 to 12VDC (negative TIP)
Consumption at 9V	<100mA
Input Impedance	<=1M Ohm
Output Impedance	<=10K Ohm
Larghezza (Width)	60mm. (2,3")
Lunghezza (Lenght)	120mm. (4,7")
Altezza (Height)	30mm. (1,1")
Peso (Weight)	0,2Kg. (0,4lbs)

FOXGEAR product warranty covers 5 years from date of purchase The warranty does not cover damage caused by accident, misuse and / or neglect, failure to comply with the instruction manual, repair and attempted repair by personnel not authorized by FOXGEAR LLC, any damage caused during transport and delivery, (claims must be presented to the carrier); damage to any product that has been altered or on which it has been removed, defaced or altered serial number; damage caused by faulty connections or connections to equipment failures and/or defective power cables. Responsibility of FOXGEAR LLC for any defective product is limited to repair or replacement of the product at our discretion. The FOXGEAR LLC not be liable for damages resulting from loss of use of the product, lost time operation interrupted by non-use of the product, loss of business or any other damages or incidental, consequential or otherwise; damage in transit or damage caused by inadequate packaging or of poor quality. **Assistance:** Please contact us for information on how, where and when to ship the product after the return has been Authorized by FOXGEAR LLC . The repaired goods should be packed carefully and we recommend not include any accessories such as cables, effects, manuals, etc. ... Please attach a copy of the original receipt of purchase (invoice or receipt) together with a problem description and your personal details. **THE WARRANTY IS NOT VALID 'WITHOUT A COPY OF YOUR RECEIPT OF SALE CERTIFYING THAT THE DATE OF PURCHASE.**

Foxgear pedals are designed in Italy and proudly handmade in our own factory in PRC.
